

PROGRAMS & SERVICES

EDUCATIONAL PROGRAMMING

Educational Programming

Strong partnerships with the School District and Early Learning Coalition will provide educational opportunities and field trips for day care centers and small school classrooms. 4H and the FFA have struggled to be a stable presence in the Keys community. We will open up this opportunity during Phase 3. These partnerships will allow for children's education on the environment, farming, food, animals, and sustainability and would offer scholarship and growth opportunities for participating students.

As we grow, we can host other therapeutic and educational services with the capability to house small day retreats and workshops. Therapeutic family retreats will give the opportunity to teach parents strategies to more successfully navigate the challenges of guiding their children to adulthood, based upon their unique needs, limitations, and opportunities. The space will allow for training and education, highlighting Monroe County as leaders in the field of family wellness.

- Gardening & Sustainable Living
- Astronomy
- 6-10 Glamping sites
- Outdoor kitchen
- Small retreats (yoga, corporate teambuilding)
- Retreats for LGBTQIA+ youth
- Therapeutic retreats for families affected by autism, divorce, trauma or loss, facilitated by a licensed therapist
- All retreats would be day trips with lodging off-site
